COMMERCIAL INSTRUCTION.—Mr. FOSTER, Author of "Prize Essay on the Best Method of Teaching Penmanship," "Pencilled Copy-books," "Doubly Entry Elucidated; an Improved Plan of teaching Book-keeping," and other commercial works, having returned from the Continent, intimates that he gives lessons in WRITING, BOOK-KEEPING, &c. as hitherto, at his residence, 161, Strand, adjoining the entrance to King's College, where young gentlemen are prepared for Commercial or Government Situations in an efficient and expeditious manner.

The notorious inefficiency of the school-acquired knowledge of Book-keeping, so justly complained of by men of business, is to be attributed solely to the mode in which the art is usually taught. Book-keeping has been treated as a mechanical process, depending upon arbitrary rules, and these rules absolutely stifle all rational investigation—principles of universal application are not only kept out of view, but the learner is prevented from making such discoveries as his natural resources would have led him to.

The limits of an advertisement preclude any discussion of the merits of this system. Its main features, however, are sufficiently marked; the *first* object being to develope, by means of ANALYSIS, the principles upon which *every plan or form* of accounts is based, and thereby to substitute a *real* for a mechanical progress.

The exercises are varied in form and substance, in order to involve the student in a train of investigation, having for its object to unfold the principles of the science, to test the accuracy of his attainments, and to fix the knowledge firmly in his mind. He is, in fact compelled to THINK, and cannot proceed unless he comprehends the means and the ends—the process and the result—the whole and the parts.

The writer is aware of the distrust which prevails with regard to any thing new. Nothing is more common than the cry of improvement; and pretensions, greater than he can claim, are every day put forth by the promulgators of "short and easy methods," with no other view than to impose upon the credulity of the public. He solicits all who are interested in the advancement of education, to test this system, and pledges himself to prove, that it leads with certainty to a knowledge of BOOK-KEEPING, utterly inaccessible by any other process. It abridges the period of study, removes every difficulty in auditing accounts, and imparts a power of investigation which neither FRAUD nor ERROR can escape.

CALIGRAPHIC BLACK LEAD PENCIL,

MANUFACTURED BY E. WOLFF AND SON,

No. 23, CHURCH-STREET, SPITALFIELDS, LONDON.

The Caligraphic Pencils have been invented by E. Wolff and Son, after the expenditure of much time and labour. They are the result of many experiments, and every effort that ingenuity and experience could suggest has been made to insure the highest degree of excellence, and the profession may rely upon their being all that can be desired.

They are perfectly free from grit; and for richness of tone, depth of colour, delicacy of tint, and evenness of texture, they are not to be equalled by the best Cumberland lead that can be obtained at the present time, and are infinitely superior to every other description of Pencil now in use.

The Caligraphic Pencils will also recommend themselves to all who use the Black Lead Pencil as an instrument of professional importance or recreation, by their being little more than half the price of other Pencils:—

H, HH, HHH, HB, B, BB, F, FF, W* ..... 4s. per dozen.
BBB, EHB ..... 8s. ,,
BBBB ..... 12s. ,,

* This Pencil is particularly recommended for writing and counting-house use.

An allowance on every gross purchased by artists or teachers. May be had of all artists' colourmen, stationers, booksellers, &c.

A single Pencil will be forwarded as a sample, upon the receipt of postage stamps to the amount.

CAUTION.—To prevent imposition, a highly-finished and embossed protection wrapper, difficult of imitation, is put round each dozen of Pencils. Each Pencil will be stamped on both sides, "Caligraphic Black Lead, E. Wolff & Son, London."

*** The usual trade allowance to stationers, booksellers, &c.

A show-box or specimen gratis with an order for a gross of Pencils.
